

RESHEL GENERATED "AERIOPAX" SYSTEM:

Excerpted from [Numis'OM - Eye of Metatron, volume 4 - 2007](#) (ThothHorRa Khandr via Maia Nartoomid)

Thoth: (the Aeriopax)"...is a geometric for bringing together the Attasic Universe as a point of mind. Not in a physical sense, but as a hologram in the mind, enabling that sentience to sustain passage through conflicting time gates....the Aeriopax harmonic...is a grid of time reality exchange. Once activated, the grid allows the passage between multi-layered time fields without distortion. There are 16 reference nodes: those points of synapse which create a referral of information through the grid. There are 6 matrices in which to create virtual reality fields and the rhombic spinning field in the center. This spinning field is the 'time tunnel' or vehicle for movement within the entire process.

....this sacred geometric can be utilized singly and especially powerfully in groups, to create full Metatron merkabic fields for temporal periods of time in which germinations of New Earth light codes can become engendered and multiply on their own - beyond the temporal Aeriopax dynamic engendered. This then, takes our humanity a giant step further in becoming the 'El'ohim' of our own created New Earth. Once we get in touch with this reality (through various forms of being and expression - all relating what is here being called the "Aeriopax dynamic"), we need no assistance from Angels or Ascended Beings to accomplish our own re-gensis, for we will know, indeed EXPERIENCE that THEY and US are ONE!

RESHEL GEOMETRY: TWO SYSTEMS ARE PHASE-MATCHED TO GENERATE THIS DYNAMIC. THE SYSTEM IS ALSO "PHASE-LOCKED" IN THE FLASHING-UNIVERSE DYNAMIC.

SOLAR-IS WHEEL WITH SOLAR.ATIS INNER RING AND SOLAR-IS OUTER RING.

6 STATES-OF-BEING

● 16 poles create the ZENXII ie, 6 specific states of being:

RUUTHI: elemental, systemic, functional, sentient.

JAEOBHIM: connective, options/choices, communicative, path to connection to the macrocosm.

HAFARHA: merging streams of reality, finding unity in dualistic systems.

APTEHOS: primary activation in heart-coherency to all points of Intelligence.

TATS'SHIA: moving beyond dualism and hierarchy; Opening of the Way for primary elements to become full and eternal Presences.

AUHUM: embrace of all powers, potents and principle as a living wave of the Fearless Flame.

SOLAR-IS WHEEL AND CELTIC CROSS: AERIOPAX

The SOLAR-IS WHEEL and Cross is added in the base-to-base mode. The AERIOPAX does not need the Celtic Cross. The idea is presented here for those that might wish to join them.

The outer sphere is the loci of the Zayin poles as the total form spins to "clone" itself into as many systems as needed, and to orient the systems in different "Critical Rotational Positions" or "CRP's" to track different points or events of interest.

The Pyramid's 51 deg. slope angle is projected to the Unified Tsadey points from the "socket" poles which were placed by linking to the Vau with a 60 deg. angle.

3 VAULTS:

- This is the VAULT OF THE ROSE-CROSS, formed with the Pools of the Moon/Life.
- This is the SIGNA VAULT formed in the base-to-base mode.
- This is the Vault of the 3000 LOTUM or the SUNFLOWER formed when both Glory poles merge in the Ulta.

CORE ACCELERATION BAR

The parallel bar is the 'core accelerator': charging, discharging and maintaining the energy separation between realities. Without the Core Accelerator all interacting realities would become enmeshed in one another - something like wadding bundles of chewing gum together and then trying to separate them."

SHOFEAR

The SHOFEAR cube and RHOMBUS: The hexagonal EYE OF RA is formed by linking the two Vau poles. This is the DWELLER OF DIVINE FIRE. The Center is the Holy of Holies, the FIRST FIRE. The Center expresses as the MONAD in a personal medallion.
